

fprint\_bstr

```
graph LR; A[fprint_bstr] --> B[fprint_raw_data_ex]
```

A diagram showing a call from the function `fprint_bstr` to the function `fprint_raw_data_ex`. The `fprint_bstr` box is shaded gray, and the `fprint_raw_data_ex` box is white. A blue arrow points from the right side of the `fprint_bstr` box to the left side of the `fprint_raw_data_ex` box.
